Strategic Operations Leader & P&L Owner | Scaling systems and building new operational models across real estate, property management, and global brands (RowCal, Wayfair, LEGO)

PROFESSIONAL EXPERIENCE

RowCal - Nashua, New Hampshire
Branch President of New England (2024-Present)

- Regional leader of a PE-backed community association management firm, directing operations, client services, and field teams across a 95-association portfolio. Restructured the branch to profitability within the first year.
- Initiated a company-wide client segmentation framework that informed retention strategy and sales targeting, enabling leadership to prioritize resources by client value and align operations with revenue impact.
- Conceived, piloted, and scaled a virtual assistant program into fully integrated Remote CAM roles, disaggregating core property management workflows to achieve 65% cost savings per employee while maintaining service quality.
- Championed AI adoption across the organization, introducing LLM platforms for daily operations and helping establish STAN AI for client care. Advised on a separate, consultant-built n8n AI assistant for HOA bylaws and governing documents that helped increase first-call resolution by 25%.

Impact House Buyers - Goffstown, New Hampshire
Founder & Managing Partner (2020-2024)

- Founded and scaled a real estate acquisition business from zero to $500K in annual revenue, building a customer acquisition engine that averaged 50 contracts/year.
- Designed and implemented end-to-end operational systems, including a proprietary deal evaluation tool for real-time property analysis and multi-SaaS integrations built on Salesforce for custom acquisition workflows.
- Managed the full client and deal lifecycle from acquisition through disposition, including sales, strategic rehab budgeting, vendor coordination, and final exit to maximize returns.

3XR - Wakefield, Massachusetts
Director of 3D Technology (2020-2021)

- Defined product standards for a proprietary digital format, partnering with engineering to build vendor-facing tools that drove cross-platform compatibility and external adoption.
- Selected to lead a strategic research initiative for a 20+ member enterprise consortium (including Boeing, Lockheed Martin, and ExxonMobil), analyzing the emerging technology landscape and presenting findings to drive product and platform decisions.

Wayfair - Boston, Massachusetts
Senior Manager (2018-2020)

- Defined product vision and led a 30-person R&D department that enabled several large vendors to produce a combined 10,000 digital assets per month. Launched multiple large-scale initiatives, optimizing timelines and budgets with data-driven progress tracking.
- Built and mentored a high-performance management layer that combined analytical, production, and strategic competencies. Evaluated and implemented new technologies that improved output quality and reduced per-unit costs.

LEGO - Billund, Denmark
Manager (2015-2018)

- Launched a new digital product format and managed a complex $1M contract transformation, championing the initiative from inception through legacy system integration.
- Chosen to own and drive the 3-year product roadmap for LEGO's Digital Element Platform, presenting strategy to senior leadership and establishing the 3D format framework that became the company's standard.

Dreamworks Animation - Redwood City, California
3D Modeler (2009-2015)

- Contributed to major film productions including Puss In Boots, Mr. Peabody and Sherman, and Rise of the Guardians, among others. Managed teams and mentored junior artists in a high-pressure studio environment.
- Developed custom production automation tools that streamlined studio workflows and reduced manual effort across the creative pipeline.

EDUCATION & CERTIFICATION

- **The Art Institute of Portland** - B.S. in Media Arts and Animation (Honors, 2005)
- **Milwaukee Area Technical College** - A.A.S. in Computer Graphics (2002)
- Certified Manager of Community Associations (CMCA) - CAMICB
